

## HA-BE receives award for "Best Cooperation" from Siemens

The annual presentation of the "Siemens Supplier Award" took place on June 13, 2013. HA-BE is proud to be included for the fourth time in the "elite" circle of the 18 companies nominated for the award.

After receiving past prizes for "Best in R&D and Innovation" and "Best Key Account," as well as being nominated in various other categories, HA-BE was nominated in the categories "Best Cooperation" and "Best R&D and Innovation" in 2013. Receiving the award in the category "Best Cooperation" turned the evening into a highlight for our Managing Director, Mr. Karl-Heinz Brunner, and our Product Manager and Siemens account manager at HA-BE, Mr. Manfred Zeitler.

For us, winning this award once again is both a considerable responsibility and a motivation to continue providing optimum services and making sure that our efforts and actions meet the highest degree of customer satisfaction. We would like to thank the entire HA-BE team, which, through their performance and outstanding dedication, played a key role in our winning this award.
