On Wednesday, 20.07.2022, Chief Financial Officer Claus Föckersperger presented a check for 1,000, - Euro to BRK District Manager Martin Hofreuter and BRK District Duty Manager Volker Andorfer.

The command vehicle currently in use is already 17 years old and, with its fax machine and laptop, far away from the current state of the art. Communication with other ambulance units is therefore increasingly difficult, which is why a new vehicle is urgently needed.

"In addition," says Martin Hofreuter, "the crew is exposed to wind and rain because the vehicle is far too small to carry out all the necessary procedures and meetings inside the vehicle." Volker Andorfer agrees: "Only with sufficient space and up-to-date technology can we - as an aid organization - continue to fulfill our important tasks in the future."

For HA-BE Chief Financial Officer Claus Föckersperger, donating to the Red Cross is a matter of course: "Everyone needs the Red Cross at some point. No matter whether in disaster control, in major damage situations or in case of high numbers of injured people. We cannot do without volunteers. So it goes without saying that we also make a contribution."

HA-BE

HA-BE Gehäusebau is a fourth-generation family business based in Altheim, Germany. In addition to clean processes, HA-BE sees itself as an innovative partner to its customers and supports their efforts towards preventive environmental protection and resource conservation across the entire value chain.
