

HA-BE

75 YEARS HA-BE

You don't celebrate a 75th company anniversary every day. Actually, only once. Or never.

It was precisely on this occasion - the 75th anniversary of HA-BE Gehäusebau GmbH - that the big anniversary celebration took place at Trausnitz Castle in Landshut on 21.09.2023 in beautiful weather.

With over 80 guests from Germany and abroad, the celebration was an impressive event. The Polish fanfare brass band, a music group from the "Landshuter Hochzeit", welcomed the guests to the champagne reception in the castle courtyard.

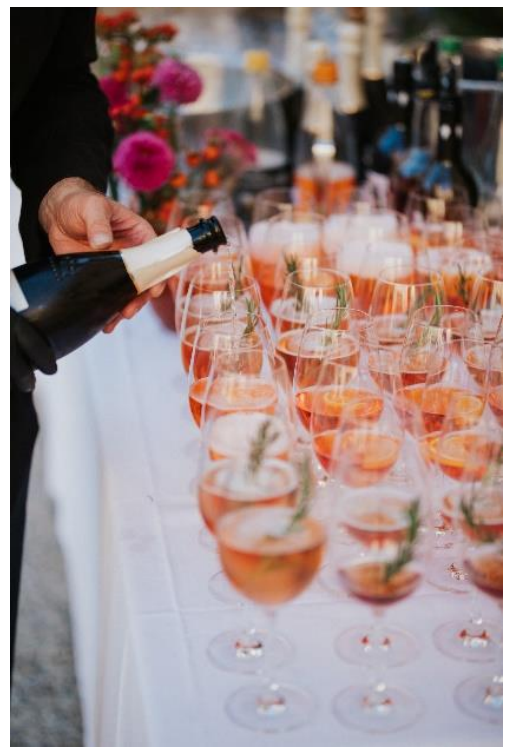

The ceremony was led by Michael Sporer, who hosted the evening. The keynote speaker was Prof. Dr. Dr. h.c. Clemens Fuest, President of the ifo-Institute. Other items on the program included a panel discussion with Prof. Dr. Dr. h.c. Clemens Fuest and Stefan Brandl, Vice

Chairman/CEO Fritz Dräxlmaier GmbH & Co. KG and a performance by a dance crew from Landshut.

The next day, a customer day was held, during which guests were offered tours of HA-BE plants I, II, III and IV. There were also breakout sessions and specialist presentations on various topics such as laser scanners, pick-by-light, Vision4Quality, automation, information on decarbonized steel and production-oriented design of laser-welded parts.

The result: two all-round successful events with many beaming, good-humored faces of guests and employees.
