

Dear customers,
dear business partners,

The year is coming to an end, and it is time to look back at the past months. 2024 was another year full of challenges for our company, presenting us all with significant difficulties.

Despite these challenging times, we have demonstrated cohesion and perseverance as a team. Thanks to the commitment and flexibility of our employees, we were able to overcome this phase together and continue to pursue our goals. I want to express my deepest gratitude to all our employees for this.

Continuous improvement and further development of our processes are our "drivers." Through the introduction of numerous digital processes, we have achieved more efficient and faster workflows and maintained our investments in automation at an elevated level despite the economically challenging times. The flexibility to respond to resource fluctuations and increased performance are essential factors to successfully meet future demands.

How do we deal with the changed geopolitical and economic situation? How do we master challenges such as protectionism and other global changes?

3 Flags – One Spirit

Thanks to our global production network in Europe, Asia, and the USA, we are well equipped for these challenges.

I personally want to thank you for your loyalty and trust in our company. Your support and collaboration are invaluable to us. Together, we look optimistically to the future and look forward to the upcoming cooperation.

We wish you and your families a contemplative Christmas season and a good start into the new year. May 2025 be a year full of health, happiness, and success for all of us.

With warm regards

Karl-Heinz Brunner
CEO
